## ISOT History

International Symposium on Optomechatronic Technologies (ISOT) is an annual event, originally organized under the umbrella of SPIE (<http://spie.org>). Typical topics are closely related to IEEE-IES scope and include Optics-based Control, Robotics and Mechatronics, Factory Automation, Motion Control, Nanotechnologies, and Sensors and Actuators.

The history of the symposium goes back for more than 10 years. The event is a small-medium size one attracting 60-150 papers over years. Here is a list of the previously held ISOT conferences:

- *SPIE International Conference on Optomechatronic Systems Control*, Part of ISOT2005, Sapporo, Japan, Dec. 2005
- *SPIE Optics East 2006- International Conference on Optomechatronic Systems Control*, Part of ISOT2006, Boston, MA, Oct. 2006.
- *International Conference on Optomechatronic Systems Control*, Part of ISOT2007, Lausanne, Switzerland, Oct. 2007.
- *International Symposium on Optomechatronic Technologies (ISOT2008)*, San Diego, CA, Oct. 2008.
- *International Symposium on Optomechatronic Technologies (ISOT 2009)*, Istanbul, Turkey, Sep. 2009.

## Exhibits

ISOT 2010 offers exhibit space and welcomes companies, universities, publishers, and researchers to participate in the conference exhibition. This event has been sponsored by international industries such as Samsung and Mitsubishi. We anticipate more than 100 conference attendees from universities, industries, and government agencies worldwide, which makes ISOT2010 a great opportunity to advertise optics and optomechatronics related products, sell books, and increase the visibility of your organization. If you are interested in being an exhibitor or need more information please contact the Exhibits and Publicity chairs and fill out the Exhibit application form.

**Important:** Booths are assigned on a first-come first served basis!!
